Governments need high performing employees who are continuously looking to create public value—whether through program and service planning, management and delivery, or through cost savings. **This is where we can help.**

Designed for working professionals, the **Online Master of Public Administration** program provides you with the knowledge and skills needed to address contemporary policy challenges.

Connect with us **via Zoom** to hear from our faculty and student advisor about the flexible delivery options, two brief in-person residencies, and application process.

DID YOU KNOW?: The JSGS is home to nine Executives-in-Residence, all former senior public servants, who co-teach some of our graduate classes and executive education workshops. Combined they have over 200 years of public sector experience.
