

CSIP INNOVATION FORUM

Science, technology and innovation policy is essential in shaping our future. Translating the narrative into clear options, strategies and outcomes is necessary, but far from simple.

Thursday, January 12, 2023
11:30 am - 12:30 pm (CST)

Delivered by Zoom.

REFLECTIONS ON THE USE OF COP STYLE NEGOTIATIONS FOR ENVIRONMENTAL SUSTAINABILITY

DR. DAVID CASTLE, PROFESSOR OF PUBLIC ADMINISTRATION, GUSTAVSON SCHOOL OF BUSINESS, UNIVERSITY OF VICTORIA AND
DR. STUART SMYTH, ASSOCIATE PROFESSOR OF AGRICULTURE AND BIORESOURCE ECONOMICS AND AGRI-FOOD INNOVATION & SUSTAINABILITY ENHANCEMENT CHAIR, UNIVERSITY OF SASKATCHEWAN

2022 ended with Conferences of the Parties of both the UN Climate Change Conference and the UN Biodiversity Conferences. These large-scale events are a core part of the long-term strategy for advancing environmental sustainability through international negotiation and agreement. We have two participants from the COP 15 of the UNBC held in Montreal in December: Dr. David Castle and Dr. Stuart Smyth. David was part of the official Canadian Delegation while Stuart was there as an expert as part of an industrial group sponsored by Crop Life International. Professor, Peter Phillips will moderate a conversation on their experience and reflections on the COP model of advancing public policy.

The Centre for the Study of Science and Innovation Policy (CSIP) invites all students, faculty, researchers, and citizens interested in the study of science, technology and innovation policy to participate in a bi-weekly forum.
