Government and the workings of the public sector impact us all. Those who understand how and why public decisions are made have an edge—not only in the public service but also in the private and non-profit sectors. Being able to visualize the complex network of public and private interests that impacts society is what will set you apart in the workforce.

Connect with us via Zoom to hear from our programs manager about our graduate degrees and certificate options, and how to apply to the school's University of Saskatchewan campus!

**DID YOU KNOW?** The Canadian Occupational Projection System estimates between 10-18% job growth in public administration and policy-related fields from 2016 to 2026, across public, private and non-profit sectors.
