Public servants are vital to improving the lives of citizens. Governments need high performing employees who are continuously looking to create public value—whether through program and service planning, management and delivery, or through cost savings. **This is where we can help.**

Designed for working professionals, the **Online Master of Public Administration** program provides you with the knowledge and skills needed to address contemporary policy challenges.

Connect with us **via Zoom** to hear from our faculty and student advisors about the flexible delivery options, two brief in-person residencies, and application process.

**DID YOU KNOW?:** The JSGS is home to nine Executives-in-Residence, all former senior public servants, who co-teach some of the graduate classes and executive education workshops.
