

## EDI DISCUSSION SERIES

# Creating Safe and Supportive Workplaces for Transgender and Gender Non-Conforming Employees

Is your workplace a safe and supportive space for Transgender and Gender Non-Conforming (TGNC) employees? Does your organization have a strategy in place to support employees as they transition? As a manager, do you know what your responsibilities are and what resources are available to support transgender and gender non-conforming employees? Join our panelists, Kiersten Mohr and Trudy Nicolle, as they discuss how to support gender diverse employees and create a safe and welcoming workplace where transgender and gender nonconforming employees can thrive. This discussion will inspire you to drive positive and inclusive change in your workplace, which will benefit all employees.

Moderated by **Jamie Mayoh-Bauche** (*she/her*), JSGS Instructional Designer, this event will feature commentary from:

- **Kiersten Mohr** (*she/her*), Founder and Managing Director, Terra Firma Transition Consulting
- **Trudy Nicolle** (*she/her*), Senior Talent Management Consultant / Inclusion Lead, Government of Saskatchewan

Creating a diverse, inclusive and equitable public sector—where all employees feel represented, respected, and supported—is necessary to support the needs of Canada’s changing demographics. This EDI Discussion Series explores how governments can actively work to support marginalized communities and break down system barriers.
